

STUDENT SOLAR AMBASSADORS WORKSHOP ON GANDHI JAYANTI, 2ND OCTOBER, 2018

Tinkering has now become a nationwide movement. In a bid to enable students unleash their innovation skill and become solution providers, Student Solar Ambassadors Workshop was organised in the Atal Tinkering Laboratory of Jain Bharati Mrigavati Vidyalaya on 2nd October, 2018. This workshop has been conceptualized under the Solar Urja through Localization for Sustainability (SoULS) Initiative, a flagship programme of Indian Institute of Technology (IIT) Bombay in association with Ministry of New and Renewable Energy. 24 students and faculty members alongwith Principial & Vice-Principal of the Vidyalaya were a part of this marathon event. 24 solar lamp kits were provided by the Ministry of New and Renewable Energy (MNRE) under GOI programme. Students assembled the kits, designed their solar lamps. They are enthusiastically looking forward to become the Student Solar Ambassadors to spread the awareness among masses about sustainability and the urgency to switch over to the renewable resources of energy. Over 1 lakh students across 700 centres in the country took part in this mega event with more than 1500 trainers facilitating it.
